New Business

Discussions Summary: As per our previous discussion, the UI of the overall application was improved. We showed a demo of groups and discussions page.

Backlogs:

OTP – completed

Improved search – completed

Group privacy level – completed

Chat functionality – in-progress

We also need to add *Ratings* attribute to the publication where other users can give ratings to publication of other users.

Decisions Summary:

1. Publication-

- Add Rating and Interest attributes in publication table.
- Allow another user to rate the publication.

2. Filter search result based on rating, relevance, publication date - completed
