General Meeting Info

Meeting Purpose: To show a quick demo and apprise about the on-going status. To discuss the work for next sprint.

Start Time: 2:00 PM

Stop Time: 3:00 PM

Old Business

Action Item Status:

TASKS	STATUS
Show a quick demo for current status of the project	Completed
To discuss about the entities/fields required in user profile	Completed
Module required for next sprint	Completed
Discuss about working of search and filter	Completed

New Business

Discussions Summary: Initially we had a small demo of working login module. Inputs were given by customer to add oAuth which was successfully added. We also discussed about the required fields for user profile page. Action items for next sprint were discussed – search and filter.

Decisions Summary:

User profile fields – profile picture, publications, interest, skills, following.
Working of search and filter – user should be able to search for a user, publication, advisor, groups, etc.
